

# HPE Position Determination Entity operations and installation

HPE CMS Education Center

## Course overview

- Delivery: Instructor-led
- Date: On request
- Length: Three days
- Location: HPE premises (preferred) or your location
- Level: Administrator
- Delivery language: English

## Course description

Hewlett Packard Enterprise (HPE) Position Determination Entity (PDE) serves as the position determination component in the Code Determination Multiple Access (CDMA) location management system. This course gives a broad explanation of PDE software and hardware components. In addition, your or your employee will learn how to install and monitor the system.

## Audience

The training is designed for:

- Network operations personnel
- Select switch technicians
- Software installers
- Support analysts
- System administrators

---

### Training agenda

#### Day 1

- Introduction to global positioning system (GPS)
- PDE overview

#### Day 2

- PDE configuration
- Wide Area Reference Network (WARN)
- Utilities
- Call flows

#### Day 3

- Statistics
- Installation

## Learning objectives

After successfully completing this course, you should be able to:

- Identify the software and hardware components of PDE
- Acquire fundamental information to perform basic operator tasks
- Understand configure features within the PDE system
- Understand how to install PDE

## Overview

### Mandatory course prerequisites

- Hardware and software overview
- Intelligent Network Server (INS) fundamentals
- Good knowledge of English—if necessary, translation services can be hired for an additional fee

### Course materials and methodology

At the beginning of the course, you will receive a PDF copy of all PowerPoint slides. Lectures are interspersed with hands-on exercises, with about half the course dedicated to practical sessions focused on platform operations.

### Course location

This course is delivered at a Hewlett Packard Enterprise site with HPE-supplied facilities and equipment. It may be delivered on demand at your premises, in which case you are responsible for training room setup, including video projector, white or paper board, and one platform test bed. In either case, attendees must bring their own laptops.

### Trainer's profile

Training will be led by a Hewlett Packard Enterprise senior consultant with a background in telecommunications and networks, and experience in maintaining and supporting clients.

### Audience size

Training requires a minimum of 3 students and a maximum of 12.

### Training schedule

- This course is offered on demand.
- A six- to eight-week lead time is required to schedule the training session.

## For more information

For details on course contents, fee, and availability, please send an email to [HPE-CMS.Training@hpe.com](mailto:HPE-CMS.Training@hpe.com).
