

### Overview

#### SUSE CaaS Platform from HPE

SUSE Container as a Service Platform with Hewlett Packard Enterprise branded support is an enterprise class container management solution that enables IT and DevOps professionals to more easily deploy, manage, and scale container-based applications and services.

---

#### What's New

- SUSE CaaS Platform 1-2 Sockets 1yr Subscription 24x7 Support E-LTU
  - SUSE CaaS Platform 1-2 Sockets 3yr Subscription 24x7 Support E-LTU
  - SUSE CaaS Platform 1-2 Sockets 5yr Subscription 24x7 Support E-LTU
- 

#### At a Glance

##### Optimized Solutions

- A key component of SUSE's software defined infrastructure solutions portfolio, SUSE CaaS Platform helps you achieve faster time to value, simplify management and control of your container platform, and maximize return on your investment.

##### Enterprise-class Technology

- SUSE managed container images for useful workloads such as SUSE Linux Enterprise base container images.
- As well as an open interface for leveraging other extensions not packaged directly in the platform

##### Exceptional Value

- SUSE CaaS is **certified and supported** across the entire HPE ProLiant portfolio.
- Comprehensive **global services portfolio** providing trusted and reliable support.

##### Hewlett Packard Enterprise branded SUSE licenses:

- Are identical to SUSE native software
  - Are available in physical and electronic delivery forms
  - Are transferable to other supported HPE Server as needed
  - Should be sold with HPE hardware at time of purchase or within 30 days of the initial sale
-

## Standard Features

### Subscription Activation Instructions for your SUSE software purchased from HPE

The subscription activation instructions for your SUSE software purchased from Hewlett Packard Enterprise is a three-step process:

- **Step 1**  
Receive your HPE License Entitlement Certification by regular mail or by email including your Entitlement Order Number.
  - **Step 2**  
Go to [My HPE Licensing site](#) to retrieve your SUSE registration code.
  - **Step 3**  
Go to [SUSE website](#) to activate your subscription.
- 

### Linux Installation and Startup Services

HPE Installation and Startup for Linux takes the pressure off your people and helps shorten your time-to-benefits. Available in two versions, this HPE Pointnext operational service encompasses all deployment activities necessary to get you up-and-running fast.

- Package 1, a fixed-price, fixed-content service, provides for operating system and TCP/IP network protocol installation and integration; network interface card configuration; printer queue setup; Remote Insight Lights-Out (RILO) or Management Processor board configuration; installation of HPE Insight Management Agent software for servers; initiation of a one-time tape backup; and basic usage orientation.
- Package 2, a custom-quoted service, may include any or all Package 1 deliverables - plus more complex activities such as "send mail" configuration, DNS configuration of network applications, hard drive partitioning, and NFS client and server installation.

**Notes:** For additional information on these services please visit the following web site: <http://www.hpe.com/servers/slesservers>

---

### SUSE Certification & Supported Matrix

An HPE ProLiant server is certified if it has passed the SUSE certification test suite. Hewlett Packard Enterprise supports all SUSE certified servers which mean Hewlett Packard Enterprise will support any HPE delivered driver or management software for SUSE.

For more information, visit our support matrix: <http://www.hpe.com/servers/slescert>
