How can on-premises and hybrid cloud small office deployment solutions help you connect?

- Enhance the customer experience with Wi-Fi access that attracts on-site visits, enables app-centric interactions, and empowers associates with information at their fingertips.
- Improve productivity with fast, secure Wi-Fi access and better application performance.
- Enable work from home productivity and connectivity by providing remote access to on-premises resources.

PROVIDE MORE OF WHAT CUSTOMERS WANT

Like any business, whether it is a single site or with multiple branches, you look for ways to connect more with your customers, so they keep coming back. That starts with offering fast Wi-Fi so customers can use their devices to stay connected while waiting or shopping. It may also include providing app-enabled on-site services, and connecting associates or providers with instant, secure access to data and files from mobile devices.

There are also times when your employees need to work outside of the office—sometimes without much notice. You can easily provide Remote Desktop Services for these employees to keep your business running while keeping your data and applications secure.

Sound complicated and costly? It doesn’t have to be. HPE Small Business Solutions for Small Office Deployment are complete, validated solutions that include compute, storage, wireless access points (APs), switches, and services—eliminating the need to select, validate, configure, and size IT from scratch and making it easy to set up and manage.

You can easily add storage with optional HPE StoreEasy network attached storage, or HPE RDX Removable Disk Backup System.

Remote Desktop Services (RDSs), included with Microsoft Windows Server, enables remote access to files and applications stored centrally on a secure server.

These complete solution bundles bring together the performance, management, reliability, and security of HPE ProLiant Gen10 servers, with reliable, cost-efficient Aruba Instant On wireless APs and wired switches that can be managed via Instant On mobile app and/or cloud-based web portal. HPE StoreEasy storage or HPE RDX Removable Disk Backup System. Optional HPE Foundation Care provides the peace of mind by providing hardware and software services aimed to help increase the availability of your IT infrastructure.

Plus, HPE Small Business Solutions for Small Office Deployment can converge multiple functions—such as virtualization, storage, and backup—onto a single server, for a simple, secure, and affordable office-in-a-box IT solution.
In short, HPE Small Business Solutions for Small Office Deployment let you focus on connecting with customers and employees—not IT.

GET MORE OF EVERYTHING

HPE Small Business Solutions for Small Office Deployment are a one-stop shop for ready-to-go solutions including hardware, software, services, and top-selling HPE ProLiant options.
