

Set up IT in a snap

HPE Small Business Solutions for Small Office Deployment with Expanded Storage

What are your top IT priorities?

- **Simplicity:** Give me IT solutions that are simple to select, set up, and manage.
- **Security:** Help me protect sensitive business and customer data.
- **Affordability:** Offer me choices at a variety of price points, and help me get solutions faster with flexible financing options.

“The setup and creation of the ... Wi-Fi network was, by far, the simplest that ZK Research Labs has tested. One unique feature of the HPE setup is that the entire process can be done via the mobile application that is available for Android and iOS devices.”⁴

Check IT off your list

When you’re setting up or refreshing a small, remote, or branch office there’s a lot to think about. Staffing, setting up utilities, picking out furniture, stocking the break room, ordering office supplies—the list goes on and on. Until now, “selecting, sizing, purchasing, deploying, managing, and supporting a server, storage, and Wi-Fi network” has been the biggest item on any new office to-do list—increasing timelines and taking attention away from more important decisions. But not anymore.

You want easy? You got it.

With HPE Small Business Solutions for Small Office Deployment, setting up IT is a snap. An HPE ProLiant server and Aruba Networking first, the HPE Small Office Deployment solution is a complete, validated solution that includes compute, storage,¹ networking, and services—eliminating the need to select, validate, configure, and size IT infrastructure from scratch, and also making it easy to set up and manage.

It’s also simple to acquire as an HPE Subscription,² with a monthly payment option from HPE Financial Services.

These complete solution bundles bring together the performance, management, reliability, and security of HPE ProLiant Gen10 servers, powered by Intel® processors, with reliable, cost-efficient HPE StoreEasy storage,³ HPE or Aruba wired and wireless networking with smart management tools, and the peace of mind of HPE Foundation Care. HPE Small Business Solutions for Small Office Deployment come in configurations that support up to 50 or 200 devices, and converge multiple functions, such as virtualization, storage, and backup onto a single server, for a simple, secure, and affordable IT infrastructure.

In short, HPE Small Business Solutions for Small Office Deployment allow you to focus on getting the office ready on schedule—and on budget.

^{1, 3} Storage included with the HPE ProLiant DL20 and Aruba 100 user/200 device configuration option.

² Available in select countries.

Solution brief

Enterprise proven—sized right for SMBs

The HPE Small Business Solutions portfolio is built on enterprise proven products and solutions, right-sized to fit the needs of SMBs. HPE Small Business Solutions for Small Office Deployment help you achieve these important business outcomes:

- Improve productivity by getting the office up and running quickly and improving application performance.
- Enhance the customer experience with Wi-Fi access that attracts on-site visits and enables app-centric interactions.

Easily evolve to hybrid cloud

HPE understands that small offices need business continuity and disaster recovery plans. This involves backing up data on- or off-premises with cloud services from Microsoft® Azure® or a managed service provider. The HPE Small Office Deployment solution can be easily extended to a hybrid cloud solution. For more information visit hpe.com/info/smb

It's all about choice

HPE Small Business Solutions for Small Office Deployment come in two configurations to fit your needs:

- HPE ProLiant ML30 with an HPE OfficeConnect switch and wireless access points is the ultimate in simplicity and speed for single sites of up to 25 users, with two devices per user.
- HPE ProLiant DL20 with Aruba switches, wireless access points, and Aruba Central offers greater flexibility and features for one or more sites. Optional HPE StoreEasy 1660 storage creates a solution that supports up to 100 users, with two devices per user.

IT priorities

Simple

- Validated configurations based on Microsoft Windows Server® mitigate deployment risks.
- HPE SMB Setup software offers a simple, guided installation process.
- Bundled HPE iLO Advanced improves efficiency and simplifies server management.
- Aruba Central and HPE OfficeConnect simplify network wireless deployment with equipment that's "set and forget," and simplify management via app or web interface.
- HPE StoreEasy wizards simplify network storage deployment and management.

Secure

- Protect against attacks and quickly recover from unplanned downtime with built-in security features that make HPE ProLiant Gen10 the world's most secure industry standard servers.⁵
- Network security features include authentication and content filtering.
- Windows Server innovations reduce security risks and disruptions.
- New StoreEasy security and encryption technologies provide stronger protection against man-in-the-middle attacks.

Affordable

- HPE Small Business Solutions are bundled at an affordable price.
- HPE Subscription packages hardware, software, accessories, and services into a predictable monthly payment.
- HPE StoreEasy data deduplication enables greater storage efficiency.

HPE Pointnext

HPE Pointnext has the expertise to help you simplify operations and easily extend and educate IT staff, helping them do more with less. A variety of offerings like Foundation Care and Education Services can help you reduce time spent on operational tasks while improving IT reliability—letting you focus on your business goals.

HPE Financial Services

You need affordable access to superior tech, but in a way that preserves cash and helps you be more efficient. Simplify your procurement process and only pay as you use the technology, over time, with **HPE Financial Services** solutions.

Change “to-do” to “done”
