EXPERIENCE INTELLIGENCE FROM THE DATA CENTER TO EDGE

HPE SimpliVity combines IT infrastructure, advanced data services, and AI-driven operations into a single, integrated hyperconverged solution at a fraction of traditional offerings’ costs.

A NEW ERA IN HCI

Enterprises have long wanted to accelerate everything—their apps, data, and innovation. For the first time, companies can now easily enable hybrid approaches from infrastructure Agility and resource fluidity to greater IT insights and visibility.

In today’s global environment and the hyper connected world, enterprises demand rapid, agile infrastructure to support their business. HPE SimpliVity has dramatically simplified and changed how customers can manage and support their infrastructure.

HPE InfoSight for HPE SimpliVity is an intelligent, AI-driven HCI platform that offers global visibility, analytics, and wellness alerts for your infrastructure—giving you critical insights to predict and prevent issues before they happen. These new intelligent features, combined with HPE SimpliVity advanced data services, elevates HCI to a new level of performance, one that is key to creating an intelligent foundation for hybrid cloud.

Experience a new level of HCI performance with intelligently simple, hyper efficient, and edge-optimized HPE SimpliVity solutions.

HPE SimpliVity
Intelligent HCI for virtualized, general-purpose workloads, edge, and ROBO

Intelligently simple
Hyper efficient
Edge optimized

Achieve exceptional data efficiency, built-in-backup, resiliency, and disaster recovery
- Reduce data footprint across primary and secondary storage
- Save up to 90% of storage costs
- Mitigate data loss with built-in data protection
- Restore 1 TB VM in 60 seconds—guaranteed

Reduce complexity and overhead for ROBO and edge deployments
- Achieve high availability for each site with only two nodes
- Simplify ROBO/edge site control with centralized management
- Backup VMs and automate edge to core off-site disaster recovery

Scientific management, troubleshooting, deployment, scale
- Centralize edge to core from single interface
- Update software, hypervisor, and firmware in 1-click
- Resolve 86% of issues before they happen with HPE InfoSight
- Rapidly deploy and scale to meet demand
- Reduce costs by 69%

Achieve exceptional data efficiency, built-in-backup, resiliency, and disaster recovery
- Deduplicate data at inception; only unique data is written to disk
- 90% (10X) capacity savings across primary and secondary storage
- Mitigate data loss with built-in data protection
- Restore 1 TB VM in 60 seconds—guaranteed

Reduce complexity and overhead for ROBO and edge deployments
- Achieve high availability for each site with only two nodes
- Simplify ROBO/edge site control with centralized management
- Backup VMs and automate edge to core off-site disaster recovery

Collapsing silos
No specialists required
Lowers overall cost

Get the HCI solution with the industry’s most complete guarantee—no gimmicks, no separate contracts, and no additional steps
