Your business needs more than just ordinary hyperconverged infrastructure (HCI). Many HCI solutions streamline the customer experience with a healthy dose of automation. But to take your organization’s day-to-day operations to the next level and to be free of infrastructure hassles, data loss, and risk—you need more.

**BREAKING THE BOUNDARIES OF HCI**

We’re entering a new era for HCI that goes beyond software-defined infrastructure to intelligent, artificial intelligence (AI)-driven operations. By infusing AI, HP has reimagined the hyperconverged experience with streamlined IT operations, enhanced mobility from edge to cloud, and guaranteed industry-leading data efficiency. HPE SimpliVity transforms how customers manage and support their infrastructure.

**HPE SIMPLIVITY**

Experience the new standard for HCI

- One platform. One simple experience. One happy admin.
- Get the HCI solution with the industry’s most complete guarantee
- No gimmicks, no separate contracts, and no additional steps

**Intelligently simple**
- Simplify management, troubleshooting, and scaling
- Centrally manage hundreds of global sites with a simple user interface experience
- Update software, hypervisor, and firmware in one click
- Predict and prevent issues before they happen with HPE InfoSight
- Reduce costs by 69%

**Hyper efficient**
- Achieve exceptional data efficiency and protection without compromises
- 90% (10X) capacity savings—guaranteed
- Restore 1 TB VM in 60 seconds—guaranteed
- Built-in data protection and resiliency

**Edge optimized**
- Automate remote sites at scale
- Achieve high availability for each site with only two nodes
- Simplify ROBO/edge site control with centralized management
- Rapid multisite failover with instant recovery across distributed sites

Get the HCI solution with the industry’s most complete guarantee—no gimmicks, no separate contracts, and no additional steps
