Additional information

- This License attaches to the specific HPE server identified and is non-transferable.
- This SKU is for the software listed above only, and does not include hardware or related support. Hardware and support may be purchased separately.
- This license includes entitlement to access and use the “HPE OneView Integration” plug-in for HPE Composable Fabric Manager, which enables HPE OneView to extend capabilities and control to HPE servers connected to the HPE Composable Fabric for the licensed server.
