11,000

HPE Pointnext Services
projects completed each year

EMPOWER YOUR POTENTIAL

Our services experts focus on a single primary goal: to enable you to create solutions that really matter and deliver tangible business value. We're innovators at heart, passionate about people and technology. We partner with the world's leading cloud providers and hold their highest certifications.

CHOOSE FROM FLEXIBLE OFFERINGS

HPE Pointnext Services helps bring together IT automation, AI-driven operations, and compliance to compose any workload, any service, across any cloud—and reduce infrastructure cost and complexity.

Hybrid Cloud: Place all your workloads, new and existing, within dedicated clouds in your own data centers and edge locations, as well as in off-premises clouds.

Edge: Redefine your operations and the experience for your customers and employees with seamless, cloud-connected, always secure personalized edge experiences.

Data & AI: Unlock the value of your data and automate outcomes with AI and analytics while building a secure, high-performing, intelligent data platform foundation.

XaaS: Unify the experience across your clouds – on premises and public. Managed for you, for better economics, unified IT operations, and control.

RECENT CUSTOMER SUCCESS STORIES

Key customers we've helped migrate successfully to Hybrid Cloud include:

SEE WHAT THE ANALYSTS SAY

IDC

HPE Pointnext Services is positioned as a Leader in the 2019 worldwide IDC MarketScape on network consulting services.

451 Research
