Extracting business value from data requires an enormous amount of compute power, technology, and integration. HPE is creating sustainable IT solutions that meet the technology demands of the future.

We enable our customers to unlock their data to solve society’s toughest challenges and improve lives at scale.

175 ZB OF DATA WILL BE CREATED BY 2025

WE ACTED ACROSS OUR VALUE CHAIN IN 2019:

**OUR CUSTOMERS**

We are developing transformative solutions that enable customers to achieve more with less.

- Announced transition to "as-a-service" company by 2022
- Nearly 4M assets returned to our Technology Renewal Centers, 88% given a new life
- Invested $1-8B in research and development
- Sustainability-related customer engagements contributed to ~$585M in net revenue

**OUR COMPANY**

Our people are our greatest asset. By harnessing the potential of our technologies and our employees, we can be a force for good.

- $21M donated to our communities
- 1M hours volunteered by HPE employees since 2016
- HPE now provides six months of paid parental leave after the birth or adoption of a child
- 54% of Board identifies with one or more diverse group, one of the most diverse in the industry

**OUR SUPPLIERS**

We remain a trusted partner by upholding the highest standards across our supply chain.

- 99% of products and $7.9B in revenues
- 3% reduction in carbon footprint from our operations since 2016
- $18M spent with suppliers that are diverse, veteran-owned businesses in the U.S.

**LOW CARBON ECONOMY**

Our environmental strategy guides our business decisions to ensure we maintain resilient operations while minimizing our impact on our planet.

- 47% reduction in carbon footprint from our operations since 2016
- On track to meeting 2025 climate goals
- Announced a new transportation logistics target

"HPE is at the center of unlocking the potential of data, helping our customers develop the solutions that grow their businesses and take society a step closer to a sustainable future."
