

HPE AND TERADICI

HPE SimpliVity and Teradici Cloud Access Software

Working together. Accelerating results.

A NEW STYLE OF PARTNERING

Hewlett Packard Enterprise and Teradici are collaborating in a fresh new way to bring increased value to customers like you.

We know that acquiring technology is only the first step in achieving a business goal. The technology pieces need to work together. They need to be tested. They need to provide rich functionality, quickly and effectively, so you can concentrate on your business needs.

To help satisfy these needs, Teradici is a member of the HPE Partner Ready for Technology Partner program, an industry-leading approach to supply sophisticated integrated technologies in a simple, confident, and efficient manner.

Teradici has access to the right tools, processes, and resources to help our joint

customers accelerate innovation and transformation that brings value, achieves business needs, and increases revenue and market share.

PRODUCT OVERVIEWS

Teradici Cloud Access Software

Teradici Cloud Access Software, with integrated PCoIP technology, enables organizations to securely access Windows or Linux® virtual desktops hosted on any on-premises, hybrid, or cloud environment. Our software provides enterprise organizations with the flexibility to easily and quickly scale virtual desktop deployments up or down using a mix of on-premises and cloud infrastructure. PCoIP is trusted to deliver a secure, full fidelity, and outstanding user experience regardless of network conditions. This means even graphics-intensive applications can be remoted with color accuracy and a distortion-free experience.

teradici®

Cloud Access Software ensures valuable intellectual property remains secure. Data never leaves the host environment as the PCoIP protocol compresses and encrypts the desktop image and only transfers pixels to endpoint displays. Cloud Access Software works with PCoIP Software, Mobile and Thin Clients, along with PCoIP Zero Clients, providing broad flexibility in compatible endpoints.

HPE SimpliVity

The HPE SimpliVity solutions give IT leaders the agility and economics of the cloud with the control and governance of on-premises IT. They deliver powerhouse hyperconverged solutions capable of running some of the world's most efficient and resilient data centers. These solutions dramatically simplify IT by combining infrastructure and advanced data services for virtualized workloads onto the bestselling server platforms in the market. HPE SimpliVity 380, available on HPE ProLiant DL380 Servers, is a compact, scalable 2U rackmounted building block that delivers server, storage, and storage networking services. HPE SimpliVity 2600, available on HPE Apollo 2000 Servers, is a compact solution optimized for edge and ROBO environments.

COMPANY OVERVIEW

About Teradici

Teradici is the creator of the PCoIP remoting protocol technology and Cloud Access Software. Our PCoIP solutions enable customers to securely visualize applications and workstations from any mix of on-premises, hybrid, or cloud environments. Fortune 500 enterprises rely on PCoIP technology, across industries, and is chosen by the most demanding and security-conscious customers like those found in media and entertainment, healthcare, federal, and public sector agencies. Founded in 2004, Teradici is headquartered in Vancouver, BC, Canada.

About Hewlett Packard Enterprise

Hewlett Packard Enterprise is a global technology leader focused on developing intelligent solutions that allow customers to capture, analyze, and act upon data seamlessly from edge to cloud. HPE enables customers to accelerate business outcomes by driving new business models, creating new customer and employee experiences, and increasing operational efficiency today and into the future.
