ADDITIONAL LICENSE AUTHORIZATIONS

For HPE CMS Entitlement software products

PRODUCTS AND SUITES COVERED

Products	E-LTU or E-Media available*	Non-production use category
HPE Device Entitlement Gateway (HPE DEG)	Yes	Production and non-production licenses are available

*Any product sold as E-LTU or E-Media shall be delivered electronically regardless of any contrary designation in a purchase order.

DEFINITIONS

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

Term	Definition
E-LTU and E-Media	means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
LTU	means License To Use.
Operating System	means software that controls the operation of a device such as a PC or mobile device and directs the processing of programs.
Unique Device	means an addressable entity, physical or virtual, including but not limited to router, switch, bridge, hub, server, PC, laptops, mobile device, handheld device, or printer that resides within the range defined for interrogation and asset tracking.
Use	means to install, store, load, execute, and display one copy of the software.
Use Case	means a specific function or set of related functions as defined by HPE or a third-party specification.

SOFTWARE SPECIFIC LICENSE TERMS

HPE Device Entitlement Gateway (HPE DEG)

- The HPE DEG software provides service configuration and subscriber entitlements for SIM, eSIM, and non-SIM Unique Devices.

- The HPE DEG software usage is calculated based on:

  – Number of Use Cases enabled and

  – Total number of Unique Devices connecting to the software

- The supported Operating Systems and related Use Cases are separate functions. Each is licensed separately.

- The HPE DEG software requires a separate license to a third-party database and a separate license to an in memory database to operate. These licenses are available through HPE.

- HPE DEG software can be licensed on a perpetual or consumption based model.

- Perpetual model:
  - License is calculated based on the total number of Use Cases enabled and the total number of Unique Devices accessing the platform
  - Total number of Unique Devices is determined based on a three month audit period
- Consumption model:
  - Usage is calculated based on the total number of Use Cases enabled and the total number of Unique Devices accessing the platform during the agreed upon term, which can be renewed and extended as needed
  - Invoicing will occur quarterly in arrears based on actual usage. If actual usage falls below minimum usage, the pre-determined minimum usage fee will be charged

ADDITIONAL LICENSE TERMS

	Term
A.	Software may contain open source and/or third-party software and associated specifications that are confidential to, and trade secrets of, such parties. You will not take any action other than to Use it as authorized under the agreement as part of the software products and will not disclose it to third parties. A list of any third-party and/or open source related licensing terms may be found on the Software Updates page of the My HPE Software Center at: myenterpriselicense.hpe.com.
B.	You shall install and use the software as authorized in the applicable agreement only as a complete product and may not use portions of such software on a standalone basis separate from the complete software unless expressly authorized in the Supporting Material, specifications, or an applicable agreement.
C.	Interfering or disabling any software designed to allow HPE to monitor usage including total number of Unique Devices and/or total number of Use Cases will be a material breach of this license.
