Internal Use	means access and Use of the software for purposes of supporting your internal operations or functions.
LTU	means License To Use.
Standby Node	means a backup system ready to replace a failed system
Use	means to install, store, load, execute and display one copy of the software.
Workflow	means an orchestrated and repeatable pattern of activity implemented and executed by Workflow Manager component available as part of HPE Enterprise Risk Management software

## SOFTWARE SPECIFIC LICENSE TERMS

HPE Revenue Intelligence Software products with additional software specific license terms are described below. Revenue Intelligence Software products not covered in this section do not have software specific license terms. HPE Revenue Intelligence Software licensee may use the license for one Dev/Test or for Standby Nodes for high availability without any additional fee.

### HPE Revenue Intelligence Fraud Risk Management and Revenue Leakage Control

HPE Revenue Intelligence Fraud Risk Management and Revenue Leakage Control can be licensed either by number of entities (e.g. subscribers of the

operator) or events (xDR) for which usage is being tracked where an event represents a single record fed into the system that will be either analyzed or archived by the fraud system. Licenses are purchased in blocks of 50K entities or block of 350k events/day. A carrier orders the number of needed license "blocks". Additional license blocks can be purchased over time as the carrier grows to cover the new subscribers. The license includes embedded third party software licenses and HPE eUM that are restricted to Revenue Intelligence products only.

### The Consumption License Model for HPE Revenue Intelligence Fraud Risk Management and Revenue Leakage Control

This offering gives the right to use the HPE Fraud Risk Management or HPE Revenue Leakage Control software during a limited period, with a minimal term of 3 months, to be renewed or extended if needed. There will be a pre-determined minimum number of events per month (where an event represents a single record fed into the system that will be either analyzed or archived by the fraud system) that will be charged, and invoicing will occur quarterly in arrears based on actual usage. Interfering or disabling any software designed to allow HPE to monitor consumption will be a material breach of this license. After termination of the consumption contract, the customer has no further rights to use the HPE Fraud Risk Management or HPE Revenue Leakage Control software.

### HPE Revenue Intelligence Embedded Platform

Database management system license can be optionally purchased as embedded in Revenue Intelligence products. Database management system license is restricted to HPE's Revenue Intelligence products only. It is licensed by the number of CPU Cores. A specific license is required for Dev/Test which may require an additional license fee. Licensee may use the license for Standby Nodes without any additional fee subject to the following limitations:

- i. The Standby Node will be used for less than 10 days and less than ten times in a calendar year;
- ii. Database instances have to be dismantled in the Standby Node.

### HPE Revenue Intelligence Enterprise Risk Management

HPE Revenue Intelligence Enterprise Risk Management is licensed by number of Workflow instances that are published in the Workflow Manager component and the number of Dashboard Tabs that are published in the Dashboard Designer component. Licenses are purchased in blocks of 5 published Workflows and Dashboard Tabs. A carrier orders the number of needed license blocks. Additional license blocks can be purchased over time as the carrier needs to cover new use cases publishing new Workflow instances and Dashboard Tabs.

## ADDITIONAL LICENSE TERMS

### Term

- A. Software may contain open source and/or third-party software and associated specifications that are confidential to, and trade secrets of, such parties. You will not take any action other than to Use it as authorized under the agreement as part of the software products and will not disclose it to third parties. A list of any third party and/or open source related licensing terms may be found on the Software Updates page of the My HPE Software Center at: <https://myenterpriselicense.hpe.com>
- B. You shall use the third party software only as authorized in this License Agreement and only as a complete product and may not use portions of such third party software on a standalone basis separate from the HPE Revenue Intelligence Software.
- C. You may only access the IBM SPSS Software through HPE FRM Software. You may not use third-party or IBM tools to access the IBM SPSS Software
