WHERE ARE YOU SENDING YOUR END-OF-USE ASSETS?

Once you decide that certain IT assets have reached the end of their utility, you are faced with several decisions. We can help you make the right decisions.

As you begin the process of evaluating whether to work with a local vendor or a world-class, centrally-located operator, we hope you’ll consider the following issues:

LOCATION AND LOGISTICS

- Does the provider optimize their routes/networks for maximum fuel efficiency?
- Does the provider optimize their loads to ensure vehicles are at capacity to and from the logistics hub?
- Does the provider’s facility have the scale to process thousands of assets on a daily basis?
- Does the provider’s facility have the scale to process hundreds of assets on a daily basis?

RETURN ON INVESTMENT

- How much equipment do they process annually?
- How much equipment do they process as quickly as possible or time the market appropriately to maximize your return?
- How much equipment do they process as quickly as possible or time the market appropriately to maximize your return?
- How do they time the market appropriately to maximize your return?
- Do they have expertise with processing assets from multiple hardware providers?
- Do they have expertise with processing assets from multiple hardware providers?
- Do they have expertise with processing assets from multiple hardware providers?
- Do they have expertise with processing assets from multiple hardware providers?

GOVERNANCE

- Do your provider place a premium on reuse over recycle?
- Are there any governance or environmental standards in place?
- Are there any governance or environmental standards in place?
- Are there any governance or environmental standards in place?
- Are there any governance or environmental standards in place?

SUSTAINABILITY

- What type of training and certification are provided to employees who handle assets?
- What type of training and certification are provided to employees who handle assets?
- What type of training and certification are provided to employees who handle assets?
- What type of training and certification are provided to employees who handle assets?
- What type of training and certification are provided to employees who handle assets?
